We have recently made such changes in our Manufacturing Department as will concentrate them, so as to enable us to carry on the business with less expense, and shall consequently reduce the price of our Goods in the same ratio.

Our customers and the public generally will find that our motto of
"Large Sales & Small Profits,"
Will be strictly adhered to in the future, as in the past, and it will ever be our aim to supply them with the
BEST GOODS, AT THE LOWEST POSSIBLE PRICE.

Our acceptable, agreeable and fair way of dealing on the Loan system, is fully exemplified by its tremendous popularity and success during the past season. It is considered by all unbiassed minds as one of the greatest blessings and advantages to those of moderate means, and the plan is on the same principle as that in our Savings Banks, where they loan money on colateral security, and the benefit derived from it can be testified to by thousands of families who are thus placed in possession of comfortable and even richly-furnished dwellings, by our system of weekly and monthly payments.

The Farmers Club.

The club is to the farmer, old or young, a school. He is learning all the time how to express his views clearly. The views of his neighbors draw out new thoughts on new subjects, and these thoughts find expression. Lawyers gain strength by long years of study and then by practice at the bar. The young lawyer making his first speech is as miserable and as awkward as the young farmer making his first public effort. The lawyers buisiness compels him to swallow embarrassment and annoyance, and goads him on to effort upon effort. The young farmer, not feeling the necessity for this, makes no further venture. The lawyer goes on and becomes famous as a good talker, and a fine reasoner. The same practice would have made the young farmer as good a talker, and a stronger, more efficient worker in his field of duty. The experiences of well educated farmers, bring this skill and strength. We advise the organization of township clubs on the simplest plan. Arrange the meetings to suit the convenience of all parties, and let the attendance be as regular as church going. [American Farm Journal.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.
SELF ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;
Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of
BOTH SEXES, SINGLE OR MARRIED.
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,
is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.
DR. DIX
boldly asserts (and it cannot be contradicted except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he
is the only regular graduate physician advertising in Boston.
TWENTY YEARS
engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to
Strangers and Travelers.
To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.
DR. L. DIX
proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.
AFFLICTED AND UNFORTUNATE!
be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of
FOREIGN AND NATIVE QUACKS,
who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by
QUACK NOSTRUM MAKERS,
through false certificates and references, and recommendations of their medicines by THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.
IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.
Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.
BUT ALL QUACKS ARE NOT IGNORANT.
Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.
DR. L. DIX'S
charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.
Medicines sent by Mail and Express to all parts of the United States.
All Letters requiring advice must contain one dollar to insure an answer.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who needs a Medical or Surgical adviser, to call at his Room No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.
Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.
His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at
No. 21 Endicott Street, Boston.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY
SOLICITOR OF PATENTS,
For Inventions Trade Marks, or Designs,
No. 76 State St., opp. Kilby St., Boston.
AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.
CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

NEWPORT DAILY NEWS.

THURSDAY, March 14, 1872.

The Outlook.

The New Hampshire election has struck consternation into the heart of the Democratic ranks. Their organs the country over, had lead them to believe that victory was sure; and it must be confessed that two months ago it did look as though they would have things pretty much their own way. They put forth the utmost efforts, the party was capable of, to retain the power which they had enjoyed for one short year, but to no purpose. The victory for the Republicans is complete, nothing more could be desired. Its influence upon the coming campaign for the presidency will be great. The friends of the administration will be encouraged and will go into the contest with renewed vigor, while the disaffected will see that the people are not with them; and without the people they are powerless. One year ago the opposition of Charles Sumner to the administration caused the New Hampshire Republicans their defeat. Nowhere was the distinguished Senator from Massachusetts held in greater esteem than in the old Granite State, but when it was fully known that his opposition had narrowed down to personal matters between himself and the president, he was thrown overboard and the administration supported. One year ago Sumner had a greater influence in New Hampshire than any other man, today that influence is unfelt.

It is the same the country over, the people believe in the honesty of Grant, and are willing to support his administration. Sumner, Schurz and Trumbull can do the party no harm. They may remain where they are now, allied to neither side, or they may go over squarely to the Democratic ranks, and they carry no strength with them. Let the malcontents appoint a separate ticket at Cincinnati or let them go in with the Labor Reformers for Judge Davis, as Sumner is in favor of doing, and they cannot confidently count on a single State to support them. If Gratz Brown were on the ticket, Schurz might possibly succeed in carrying Missouri, but that would be the limit. Trumbull cannot hope to carry Illinois and Sumner's influence would have little effect in shaping the votes of Massachusetts. View the situation in whatever light we please, and it wears an encouraging aspect for the Republican party.

The Tariff.

We find in the New York World the annexed letter from C. B. Farnsworth, Treasurer of the Dunnell Manufacturing Company, to Edward Harris of Woonsocket, one of the largest woolen manufacturers in the United States. Mr. Farnsworth appears to have studied the subject of the tariff closely, and there is other evidence than this letter that he has done so; and he treats it with great ability and remarkable conciseness and clearness:

PROVIDENCE, Dec. 13, 1871.

MY DEAR SIR: The tariff, as it now stands, by imposing heavy taxes on the importation of bituminous coal and salt, entirely prohibits the manufacture of several articles of great importance and extensive use in this country. Salt is the principal raw material for the manufacture of muriatic (hydrochloric) acid, soda ash, sal soda, and bleaching powders. Very large quantities of these are used in this country; and, except muriatic acid, are all imported, as the duty on all the imported articles is much less than upon the salt from which they are made. Muriatic acid is made in this country almost entirely, in consequence of the difficulty and expense of transporting it from abroad in glass. But it costs here in the market about 3 1-4 cents to 3 1-2 cents per pound, while we ought to get it at less than half that price. In England it is largely used for bleaching, for which purpose it is better than sulphuric acid; but in this country sulphuric acid is used on account of the dearness of the better acid. Soda ash and sal soda, which are very largely used in the arts, are made from salt and are necessarily imported, because the duty upon them is very much less than upon the raw material. The chlorine of bleaching powder (chloride of lime) is also made from salt, and could be made here—as we might make soda ash and sal soda—were it not for the heavy tax upon the raw material. In that case we would put to some available use our extensive mines of oxide of manganese, of which we have plenty, but which we do not use at all in this way. About thirty thousand tons of this article are annually bought by the English manufacturers for making bleaching powders, in connection with salt. The tariff has been supposed to be beneficial to American labor; but while it helps some it injures others, and I have serious doubts whether it is right or expedient that one man's business should be injured or destroyed for the purpose of helping that of his neighbor.

Cheap bituminous coal is necessary for the manufacture of the above-named chemicals. But without duties on coal, the excellent coal from Nova Scotia could be laid down in most of the ports east of Cape Cod at about $4 per ton, and as the business increases, probably at less than that price. With coal at that price and untaxed salt, we should soon compete in the market with the manufacture of these very important articles, together with several other articles into which salt is made, one of which is chlorate of potash, that now bears a most extravagant price, and is essential to us in time of war.

The tariff seems in many respects to have been arranged so as to make an unnecessary burden on both the manufacturers and the people without producing a corresponding benefit in the revenues of the government.

Very truly yours,
C. B. FARNSWORTH.

To Edward Harris, Esq.

Extravagant Land Grants.

Senator Morrill, of Maine, took occasion Monday to enter a protest against the extravagant grants of lands by Congress to aid railroad schemes. The provocation for his speech was found in a bill fathered by Senator Osborne, of Florida, to grant the right of way through the public domain in that State for a railway which nobody knew anything about, so far as the Senate was concerned. Who the corporators or managers were did not appear. Whether it was a "wild cat" speculation or not was not explained, and the Senate passed the bill without a dissenting voice. Mr. Morrill told the Senate that all Congress had done in the matter of land grants since 1806 would come back to haunt them, and the people would directly take the matter in hand; he showed that since the date named the grants of lands by Congress to railroads amounted to about two hundred and sixty million acres; that but for a small portion of these grants patents have been issued, and much of it remains in this condition to avoid Government taxes. The government directors of the Union Pacific Railroad have finally decided to locate the eastern terminus of their line at Council Bluffs, in accordance with the repeated and earnest appeals of the legislature and citizens of Iowa, and have filed their report and decision to that effect with the Interior department.

Thirty-six clerks were discharged from the census bureau Tuesday, leaving the force now on duty only about two hundred. At the present rate of progress the work of the ninth census will be practically complete by the close of the current fiscal year.

The committee on banking and currency has decided to go on Thursday with their investigation of the charges against Controller Hulburd. The prosecution thus far has failed to make any substantial point against the controller, and prominent members of the committee express a decided lack of faith that the investigation will affect his character or official integrity.

Senator Chandler yesterday, moved to recommit to the finance committee the Chicago relief bill; for the purpose of giving a hearing to the objections of the delegation of seventy-five lumbermen from the Saginaw district in Michigan. The friends of the bill now threaten that if opposition to the bill is not withdrawn, they will retaliate by a free-lumber bill, introduced and pressed simultaneously in both houses of Congress.

Political.

The so-called liberal Republicans prate much of reform, yet propose to ally themselves with a party which has produced the Tammany thieves.

It is a noticeable fact that in localities where the Democratic party is in a hopeless minority the passive policy finds fewest adherents.

Says the Chicago Journal: "If such flies as Trumbull and Schurz choose to walk into the parlor of the Democracy, they will no doubt be welcomed and made much of after the usual spider fashion."

A Richmond (Va.) paper pronounces civil service reform "vague, dreary, impractical, if not altogether nonsensical."

Beriah Brown long a leader of the Democracy of Oregon, was disgusted by the last State Convention of the party. He condemned it publicly as the most corrupt party Convention he had ever witnessed, and said that after it, he deemed adherence to party personal degradation.

The Lexington (Ky.) Press thinks that in any triangular fight the Southern Democracy will hold the balance of power, and it says that the Northern leaders who imagine that they can throw the whole Democratic strength for any discontented Liberal Republican whom they may select, may as well disabuse themselves of their erroneous impressions.

It is stated that Andrew Johnson intends to run as an independent candidate for the Governorship of Tennessee.

The New York Times pertinently asks: "Is the party that produced Tweed, Bernard and the Legislatures of '70 and '71 fit to be trusted with national reform?" New Hampshire has just put in an emphatic No.

Take Your Home Paper.

Take your home paper; it gives you more news of immediate interest than New York or other papers; it talks for you when other localities belie you; it stands up for your rights; you always have a champion in your home paper, and those who stand up for you should certainly be well sustained. Your interests are kindred and equal, and you must rise or fall together. Therefore, it is your interest to support your home paper; not grudgingly, but in a liberal spirit; as a pleasure, not as a disagreeable duty, but as an investment that will amply pay the expenditure.

EDUCATIONAL.—Commissioner Bicknell, A. D. Small, and others, will speak at the State educational meetings to be holden at the Methodist Church in Middletown, today, including as usual, teachers' meeting at half-past nine o'clock in the forenoon, pupils' meeting at half-past two o'clock in the afternoon, and peoples' meeting at half-past seven o'clock in the evening.

WHO STOLE THE WATCH?—Mr. Benjamin T. Coe, of New Shoreham, was the loser of a watch, Monday morning from his boarding-house, in this city. He could find no clue to its whereabouts, and informed the police of the fact. This morning, however, as he came out of his room, he found his lost watch hung upon the door latch.

A SAD ACCIDENT AT BLOCK ISLAND.—A fishing smack containing five persons—Edward Young, Henry St. Clair, Wm. Champlin, Frank Lawton and Chas. Huddy, all of this city, put into Block Island for a harbor on Monday, but the wind blowing very hard on Tuesday, they were driven out to sea again. They then made for the island a second time, and being afraid of foundering at sea, left the smack and took the small boat to make a landing. When within ten or fifteen feet of the shore a heavy sea capsized them. There was a high wind and a heavy sea on at the time and the weather so intensely cold that they were instantly benumbed. Young, St. Clair, Lawton, and Champlin succeeded in reaching the shore but in a state more dead than alive. It was supposed that Mr. Huddy was struck by the boat and probably knocked senseless, and drowned immediately after. His body floated ashore reaching there before its comrades. Assistance was at length obtained from the nearest house, and the body brought up from the shore. Every kindness was shown the unfortunate men by the Block Island people. A coffin was procured for the body of their comrade, and his remains were brought to this city last night, in the smack. Mr. Huddy was well known to all the fishermen and pilots of Rhode Island, and was a kind and loving friend. He leaves a wife and one child to mourn his loss.

FURTHER PARTICULARS.—It seems that they were less than a hundred yards from the shore when they took to the small boat, and the second wave that struck them after embarking capsized their frail craft. When they reached the shore, Young was unable to stand, and would doubtless have perished before reaching the house if St. Clair had not come to his assistance. Champlin could not speak and it was with the utmost difficulty that he was able to move. Lawton seemed in the best condition of the number at first, but after they had reached shelter the cold and his terrible exertions had had such an effect upon him, that his life was despaired of for a time.

The good people of Block Island rendered every service in their power. They wished to take the sufferers to their houses and provide for them, but of this those at whose house they were, although very poor, would hear nothing and there they remained till yesterday afternoon when they were brought here as before stated.

Vineyard Grove.

Reports from Vineyard Grove say that quite a number of boarding-houses are already open. Mr. Sturgis has opened the Pawnee House. The Oak Bluffs House has been fitted up so that it looks like another building. The east end has been clapboarded, and the building has been painted all over outside. It has been leased to Mr. Hiram Hayden, of Fall River. The cellar for the new hotel is commenced, but the workmen make rather slow progress, as the ground is frozen to the depth of about 14 inches. Capt. Foss is building a nice store forty feet long by twenty five feet wide, near the plank walk on the Highlands.

It is also stated that a good many lots have been sold within the past month. In one day a few weeks since, 14 lots of Mr. Pratt's land, near Butler's farm, at the lower end of the Camp Ground, were sold.

The old planter classes in the South are by no means satisfied with the situation. They complain that the war left them poor, and that they are poor still; that in the fine old days of slavery they had servants and so forth, and could do pretty much as they pleased, whereas now they are needy, and have to do thus and so. But, per contra, one excellent Southern journal, the Columbia Union assures us that the people of the South, as a class, are not poor; that, in fact, they have less debts and more ready money now than ever they had, and that business men are rapidly becoming rich. "All the saw mills," the Union says, "factories, brickyards and stone quarries in the vicinity of Columbia are pressed to their utmost capacity."

Sir John A. Macdonald, the Canadian Premier, emphatically denies the story that a secret treaty for the independence of the Dominion was on the tapis. A letter of his says that the rumor is altogether without foundation—having no semblance or shadow of truth, and that the subject has never been one of consideration between the Canadian Government and that of the mother country, Canada's independence will not come until the Upper and Lower sections are admitted into the Union as the States of Lafayette and Acadia.

There is yet hope that energy may be brought to bear for the material development of the South, and as usual, our highest hopes are in the keeping of women. A Mississippi paper tells a very refreshing story of a young lady who, on graduating from the seminary, went home, hired a few colored laborers, and went to farming. The result of the first season's experiment was six hundred bushels of corn, a large quantity of potatoes, and $900 realized from the sale of cotton, after all the expenses of the year were paid. Give the South enough women of this sort and it makes little difference who votes.

The owners of the whale, which was on exhibition a few months ago in Boston, have had the monster so preserved by embalming, tanning and stuffing that he presents a life-like appearance. It is the design to exhibit his whaleship in all the principal cities and towns of the United States, and in order to do which three large cars are being constructed, each 75 feet in length. Two of these cars are for the conveyance of the whale and the third for the accommodation of the party who will accompany it on its travels through the country. A real whale will certainly be a novelty to the people of the inland States.

Cuba has been a pretty expensive slaughter house for Spain, the past four years. In 1868 there were nearly twenty thousand soldiers on that island, and by December 1871 she had sent over sixty thousand more. Besides she had armed twelve thousand guerrillas and forty thousand volunteers.—The last accounts reported that thirty thousand more troops were to be sent over.—Spain has lost immense numbers, and she may count on continuing the same process indefinitely, unless she can find some better way to govern than by shedding blood in torrents. She must drink of her own wine cup.

In the State Senate, yesterday, the bill concerning alien passengers (exempting able-bodied, self-supporting immigrants from the tax known as head-money), was ordered to a third reading by a vote of 26 to 6. In the house, a bill was reported concerning the leasing and location of railroads, and concerning the connection of railroads of different gauges. In both branches several adverse reports on petitions of charitable institutions for special grants were accepted with hardly a dissenting vote.

They have a new entertainment in some of the villages of Western Massachusetts. At Pittsfield a few days ago, the people gathered at the Town Hall to the number of 125 in response to the invitation of the selectmen and were vaccinated at 25 cents an arm. Each person was supposed to derive satisfaction enough at seeing his neighbors operated upon to more than repay him for his own outlay. They have very little fear of small pox in Pittsfield, but vaccination is a popular diversion nowadays.

A good exhibit of the work of President Grant's three years' administration is made in the following figures: Reduction of the public debt, $200,640,752 03. Reduction of the burdens of taxation, $80,000,000 per annum. Collected in the course of three years, $1,200,000,000. Expended, $1,000,000,000; making an aggregate of $2,200,000,000. Of this vast sum less than one-fifteenth of one per cent, has been lost.

A distinguished journalist admits that George Washington and Andrew Jackson were as bitterly opposed, as savagely denounced, in their time, as any public man of our day—a very pleasant reflection for any gentleman who has the misfortune to be an "in" rather than an "out" at Washington at the present time.

Senators Trumbull and Morton had a sharp set-to Monday, in which the Illinois combatant rather won the laurels. The latter is not only dignified, but possesses great mental alertness and penetration. It hardly does to expose a weak point when engaged in debating any question with the Illinois senator.

Testimonials of the excellence of the patent Papered Wood Hangings multiply. Economy, durability and beauty are their chief characteristics. With them, closets are finished in red cedar, pantries in white wood, china closets in ash or maple, libraries in mahogany panels and walnut styles and mouldings, vestibules in black walnut, reception rooms and parlors in silver birch, bird's-eye maple or satin wood, with mahogany or wild cherry styles, mouldings and ornamental work, dining-rooms in oak, ash or butternut. Also, elegant wainscoting or dadoing done with the choicest varieties of native and foreign woods. The wood hangings are depended upon by those whose knowledge of building is most extensive. These hangings are manufactured and sold exclusively by Mr. C. W. Sparr, 43 Summer street.

FROM WASHINGTON.

March 18, 1872.

Effect of New Hampshire's Election.

Perly telegraphs the Boston Journal, the glorious Republican victory in New Hampshire has completely staggered the disorganizing Republicans, who had counted on a defeat. This they thought would aid them in drumming up recruits for the Cincinati side show. But it is now very evident that while a few disappointed politicians may exhibit themselves at that performance, the great masses of the Republican party will support the nominee of the Philadelphia Convention.

How the Democrats Feel.

The Democrats, while they congratulate themselves on having cast as large a vote in New Hampshire as they did, see plainly that they received no support there from the disorganizing Republicans, and are not disposed to coquette longer with them. It is more certain than ever that the contest for the Presidential chair will be between the Republican candidate nominated at Philadelphia and the Democratic candidate. A liberal expenditure of money may sustain one or two pretended national nominations, but they will have no real strength among the people, and the leaders will be in the market.

GENERAL ASSEMBLY.

JANUARY SESSION AT PROVIDENCE.

WEDNESDAY, March 13.

Senate.

The Senate was engaged upon the "Laws" and turned off a commendable amount of work.

House.

The special order of the day, the amendment to the title "Of Fisheries," offered by Mr. Clarke of South Kingstown, providing for the prohibition of trapping and heart seining of fish in the tide waters under the jurisdiction of the State, was taken from the table.

Mr. Clarke of South Kingstown and Mr. Grant of Providence submitted arguments in favor of the amendments.

Mr. Ames of Providence said that he was in favor of the immediate passage of an act to prohibit the trapping of fish. If the amendments were adopted simply in amendment of the title before the House, they would not go into operation until the final adoption of these statutes as revised, which may be considerable time hence. He hoped the amendments would be offered as a new bill.

Mr. Clarke of South Kingstown withdrew his amendments, and then introduced a bill entitled "An Act to prohibit the trapping and heart seining of fish."

Mr. Sheffield of New Shoreham offered an amendment providing that none of the provisions of the act should apply to the island of Block Island.

The ayes and nays were ordered on the passage of the act, which passed by a vote of 40 ayes to 16 nays, as follows:

AYES—Messrs. Aldrich, Ames, Baker, Brayton, Carr, E. Clarke, C. Cook, W. Cook, Grant, G. W. Greene, R. W. Greene, Hazard, Hill, Hopkins, Johnson, Kent, Kibbe, Lawton, LeFavour, O. W. Lovell, Lyman, Miner, Nickerson, Northup, Parker, Perse, Peck, S. Peckham, Perkins, Phillipps, Pierce, Potter, Reed, Saunders, F. M. Smith, N. G. Smith, F. Steere, Wardwell, G. L. White, and J. M. White—40.

NAYS—Messrs. Browne, Dixon, Dodge, Durfee, Finch, N. B. Lewis, Lovell, Mowry, J. A. Peckham, J. G. Sheffield, W. P. Sheffield, A. Sisson, H. T. Sisson, B. Steere, Townsend, and Winsor—16.

The act as finally adopted reads as follows:

AN ACT to prevent the trapping and heart seining of fish.

It is enacted by the General Assembly as follows:

SECTION 1. To trap, heart seine, fyke net or other contrivance of any kind or description other than gill nets of not less than 5 inch mesh, or purse or bag seines, scoop, or hand nets and hook and line for catching fish, shall be set or drawn in any of the tide waters within the jurisdiction of this State; provided, however, that nothing in this section contained shall prohibit the catching of lobsters or eels in pots, or the spearing of eels or fish.

SEC. 2. Each and every person who shall be or shall have been engaged in setting any trap or other contrivance prohibited by the preceding section, shall be deemed guilty of a misdemeanor, and shall pay a fine of not less than fifty, nor more than three hundred dollars for the first offence, and for the second and every subsequent offence, he shall be fined a sum not less than five hundred dollars, nor more than one thousand dollars, and shall be imprisoned for not less than one month, nor more than one year.

SEC. 3. All nets or other contrivances, apparatus, boats and vessels of persons willfully and knowingly engaged or employed in violating the provisions of section 1 of this chapter, or in carrying off the fish so caught, shall be forfeited, and shall cause one-half thereof to the use of the State and one-half to the use of the complainant.

SEC. 4. The provisions of this act shall not apply to any of the fisheries at or around the island of Block Island.

Lassitude and Debility.

The relaxation of nervous energy which creates an indisposition to physical or mental effort, so strong as almost to amount to positive inability, and which we term lassitude, proceeds from a variety of causes. The principal of these are constitutional debility, heat of the atmosphere, coupled with humidity, climatic changes, and the physical prostration consequent upon a long illness. But whatever the cause, it must be perfectly clear that if the nervous system is unduly relaxed, something is required to brace it up. That something is Hostetter's Bitters, which is universally recognized as the most complete and speedy recuperant of the physical forces in existence. It has been so thoroughly and widely demonstrated as to be a matter of positive certainty and familiar knowledge, that the Bitters will not only rehabilitate the physique, when shattered and wasted by disease, but will also, if taken systematically, actually compensate the constitutionally feeble frame for its deficiency of strength, and by infusing new life into a weak system, endow it with the health and vigor which Nature has denied it. The Bitters also enable the body to resist the enervating influences of heat, humidity, and changes from a temperate to a hot climate. It is on these accounts specially to be recommended to travellers and residents in the torrid zone, and persons subjected to abrupt transitions in temperature.

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS.

NEWPORT, Ss. CITY OF NEWPORT.

WHEREAS, the ballots given in by the qualified electors of the First Ward, at their ward meeting, legally held on Saturday, the 9th day of March instant, for an Alderman to represent said ward in the City Council for the remainder of the present municipal year, having been delivered to the City Clerk and opened and counted by the Board of Aldermen, in open meeting: And it appearing that no person had a majority of said votes for an Alderman;

This Board do thereupon order that another election be had, and that the same take place on Tuesday, the 19th day of March instant, at 10 o'clock, A. M., according to law, and that the City Clerk notify the qualified voters of the First Ward, in the city, qualified to vote for General Officers, to meet at the following named place, for the purpose of giving in their ballots, for an Alderman, to represent said First Ward, as aforesaid:

In First Ward—At Engine House, No. 2, Bridge street.

Notice is therefore hereby given to the qualified electors of said First Ward, qualified to vote for General Officers, and they are hereby warned to meet in ward meeting in said ward, on Tuesday, the 19th day of March inst., at 10 o'clock in the forenoon, for the purpose of giving in their ballots for one elector in said ward to be a member of the Board of Alderman for the remainder of the present municipal year, viz.: until the first Monday in June next.

Said ward meeting as the law directs, will be kept open until 8 o'clock in the evening and no longer.

Witness my hand, Newport, March 11, 1872.

BENJAMIN MARSH, 2d.,
City Clerk.

NEWPORT DAILY NEWS

A Tale of Love and Romance.

The Peoria (Ill.) Transcript tells the following:

One hundred and forty years were the united ages of a couple married at the residence of M. Lambert, in Yates City last Tuesday evening. The bridegroom was from McLean County; by name,——Burwell; age seventy two. The bride, a Yates City girl; age sixty-eight; by name, Elizabeth Snell. There is, too, a spice of romance in this true tale. The aged couple have loved for more than thirty years. When in the prime of life—he in the forties, she in the thirties—they met and loved, but young love's dream had a rough awakening and they were drifted wide apart. He married, but not the woman of his heart. She was also united to another than the man of her choice. Since then Mrs. Snell has been twice married, twice a widow; and Mr. Burwell has also for some years been widowed. A few weeks ago, the lady, visiting some friends at Bloomington, met her lover, when Cupid's wing fanned a latent spark of the old flame until it burned as brightly as of old. Mrs. Snell returned to her home to make preparation, for her wedding, and on Tuesday evening the Rev. Dr. Conch celebrated the union of these two loyal hearts. Judge Hanneman, of Knoxville, vouched to the county clerk that Mr. Burwell was of full age, and while this is being penned the happy couple are on their way to the bridegroom's farm rejoicing.

ANOTHER GREAT TRIUMPH

has been achieved by

SOPHIE MAY'S

"grown up" story

THE DOCTOR'S DAUGHTER

One Handsome Illustrated volume, cloth, $1 50, just issued, which has already had a very large sale and which is winning golden opinions from the critics of the press.

Do not fail to read it!

All the tenderness, earnestness, and jollity which characterize her writings for young folks, and which causes them to be as eagerly sought by parents as children, abound in this story for older readers.

"Bright as a sunbeam, natural as life itself, unpretending as real goodness, and sanitary as the personal effect of pure spring water."—*Bost. Transcript.*

"The book is made up of wholesome, commonplace experiences, so charmingly told that from first to last the interest never lessens."—*Hearth and Home.*

"All the young girls of our acquaintance pronounce it splendid."—*Portland Transcript.*

"The Doctor's Daughter" should be classed with such books as Mrs. Whitney's "Real Folks" and Miss Alcott's "Little Women," and high praise as it may seem, we feel inclined to say it is equal to either of the stories mentioned.—*Crocker's Literary World.*

The virtues of simple Tea as a Hair Tonic and Preserver have long been known, but no attempts have been made to extract the oil scientifically.

By a process peculiar to this preparation, the

Essential Oil of the Tea Plant

has been added to other vegetable extracts, and an

UNEQUALLED TOILET ARTICLE

FOR THE HAIR IS THE RESULT.

It is especially useful to prevent the hair from falling out or growing thin, and as a wash for the scalp, to stimulate the hair bulbs and prevent the gradual decay and loss of color in the structure of the hair tubes. Price, $1.00.

MILLIONS Bear testimony to their Wonderful Curative Effects.

DR. WALKER'S CALIFORNIA

J. WALKER, Proprietor. R. H. McDONALD & Co., Druggists & Gen. Agents, San Francisco, Cal., and 34 Commerce street, N. Y.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile **Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER** and **A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

"PATENT PAPERED WOOD HANGINGS."

Parties Decorating their Walls and Ceilings should carefully examine the merits of the WOOD HANGINGS and not accept the unfavorable reports of interested parties. Instead of throwing away your white doors or having them grained or putting in solid hard wood, you can have them covered with Wood Hangings, putting in solid mouldings, saving a great expense.

Office of JAMES Y. SMITH & NICHOLS,
No. 50 Westminster Street,
Providence, R. I., April 20, 1870,

CHARLES W. SPURR, Esq., 49 Summer St., Boston.

DEAR SIR—Our Union Bank decorated their banking rooms with your Wood Hangings two years ago, which has been much admired. The work stands well, no showing of its giving out in any way. Hope you are successful in introducing the same.

Very truly,
JAMES Y. SMITH, President.

ERIE RAILWAY, JOHN S. DUNLAP, N. England Agent.
124 Washington Street, Boston, June 24, 1870.

CHARLES W. SPURR, Esq.,

DEAR SIR—I have your favor of the 1st, referring to your Wood Hangings. About a year since I had it used in the dining room and halls of my house, and to date I am perfectly satisfied with it in every particular.

Very truly,
JOHN S. DUNLAP.

SELWYN'S THEATRE, MANAGER'S OFFICE,
BOSTON, May 5th, 1870.

CHAS. W. SPURR,

SIR—I wish to say that your Wood Hangings have been on the walls of the Vestibule of this Theatre since August, 1868, and have proved entirely satisfactory. As the walls were plastered, and the Vestibule very much exposed to the varied changes of the weather, there were serious doubts of the permanency of this style of decoration, but those doubts have been entirely removed. And the truth of this is manifest to the many who come to see and judge for themselves, and who admire its beauty and novelty exceedingly.

I am in yours truly,
JOHN H. SELWYN.

TRANSCRIPT OFFICE, Boston, May 10, 1870.

CHAS. W. SPURR Esq.,

DEAR SIR—The Wood Hangings you put upon my house, No. 14 Montgomery Street, has stood the test of two years' use, to the entire satisfaction of the family. It is as firm on the wall as the day you left it. The heat or moisture has not caused the wood to peel in a single spot, and I see no reason why it will not remain so for years. I can cheerfully recommend its use to all, in preference to paper in a dining room.

Respectfully and truly yours,
H. W. DUTTON.

These Wood Hangings are manufactured and for sale at **No. 522 Harrison Avenue, Boston.** Persons desiring to see these Hangings already, or will be referred to parties in Newport by inquiring at the DAILY NEWS OFFICE.

CHAS. W. SPURR,

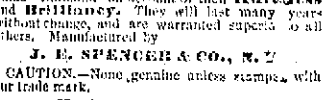

522 Harrison Avenue, Boston.
